The Wilderness Resort
on Beautiful Spout Lake

Too good to keep secret!

Ten-ee-ah Lodge

THE place to experience the spirit of wilderness

In the heart of the Cariboo Country, 3600 feet above sea level, we are the only property in the untouched nature of Spout Lake with its fauna and flora.

The generously designed and restored property includes the Main Lodge with a restaurant, famous for its European cuisine and wines from all over the world, a bar, game room, library and gift shop with art gallery.

A Four-Star Resort with a Five-Star Attitude

Deluxe log cabins and luxury log houses accommodating between two and six guests, designed as studios or with one, two or three bedrooms, all with a living area and fireplace or stove, bathroom, kitchenette, a balcony and an outside fireplace with a picnic table.

Standard Hotel rooms with bath/shower.

Campers are also most welcome at Ten-ee-ah Lodge

We have 10 spacious campsites each with an electrical hook-up, individual barbecue and picnic table as well as showers and restrooms in the main building.

The ultimate wilderness experience is an overnight camp on one of the lake's islands in an original Tipi. All the necessary items are included to make your stay unforgettable: sleeping bags and mats, cooking kit, food, motorboat, fishing gear.

- ▶ Ecological motor boating
- ▶ Guided horseback riding, fishing trips, canoeing, hiking, biking
- ▶ In summer, you can enjoy dinner or BBQ on the terrace of the Main Building.

summer activities

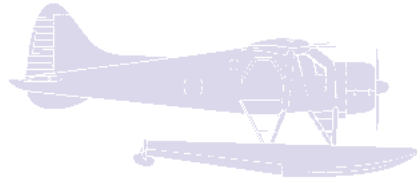

Winter Outdoor Activities at Ten-ee-ah Lodge

Sunshine, crisp cold air, and a frozen Spout Lake with its layer of fluffy snow await you for a wide range of exciting activities. We offer ice-skating, snowshoeing and cross-country skiing.

Flight Seeing

You're not a real member of the northern hemisphere until you've taken a trip in a floatplane.

It's a unique experience to take off and land on water, and one that will leave you with an unforgettable impression of the vast country. Fly to a remote mountain lake where you'll be amongst only a handful of humans ever to have walked its shore. It's sure to take your breath away.

Ten-ee-ah Flying Club

Operating out of Spout Lake

Spout Lake (CSU6) is an official floatplane base. It is Ten-ee-ah Flying Club's home. We operate two aircrafts, a DeHavilland «Beaver» and a Piper «Supercub». We are specialized in Seaplane Ratings, Aircraft Rental, Type Ratings, Charter Flights, Flight Seeing Tours, Fly Out Fishing Trips and have experienced onsite instructors.

In British Columbia, Ten-ee-ah Flying Club is one of the very few operators, if not the only one allowing its guests to fly solo in a floatplane.
